

# PROVIDER NOTICE

## Real Time Online Authorizations for Clinical Certification

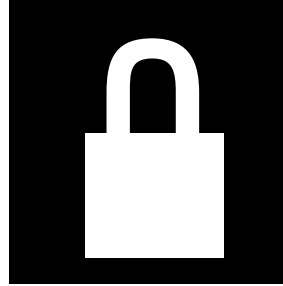

### Announcing CareCore National's Enhanced Website Functionality

➔ Industry's most comprehensive online authorization portal

➔ Best e-learning physician support tools in the field

➔ Secure & HIPAA compliant

➔ Streamlined & efficient process that allows for 24/7 real time access

CareCoreNational's website has always allowed physicians to submit high-tech imaging procedure requests online, but until recently, physicians had to wait for CareCore National to contact them with the results of the review.

#### **Now physicians' requests are processed in real time online.**

Through our interactive, web-based program prior authorization requests can be initiated and determined in real time. **If medical necessity is determined during this process an authorization number will be issued immediately.** Physicians can also submit additional information at the conclusion of the session and print a procedure request summary page.

#### **Go to [www.carecorenational.com](http://www.carecorenational.com) to register your office today!**

For additional information and to view the online interactive, web-based training tool please go to [www.carecorenational.com/ProviderTools.html](http://www.carecorenational.com/ProviderTools.html). Under "Process Tutorials" you will find the "Provider Web Submission Module."

**Experience the new, efficient and instant way to obtain prior authorization.**
